

# MARIAN CENTRAL CATHOLIC HIGH SCHOOL

## Acceptable Use Policy (AUP)

### for the Use of Technology for Students

#### **Purpose:**

Marian Central provides individual laptops and other technology resources to serve its students. Access to these resources is provided to further the educational goals of the school and the Diocese. Students are to use these resources for educational and/or school-related activities and to facilitate the efficient exchange of useful information related to the student's schoolwork. The resources provided through the school, including the individual laptops, are and remain the property of the school. Students are expected to conduct their online activities in an ethical and legal fashion. The use of these resources is a privilege, not a right. Marian Central has the right to and does monitor the use of computers and other electronic resources by students, including students' access to the Internet, Internet use, and e-mail use and content. Thus, students have no expectation of privacy in their use of school computers, the Internet, or email.

#### **Goals:**

The goal in providing technological resources to all students is to promote educational excellence in our school. We do this by facilitating resource sharing, innovation, and communication amongst students and staff with the support and supervision of parents, teachers, and support staff. With respect to any of its computers and other electronic resources, Marian Central uses filtering and blocking software as well as staff members to monitor Internet usage. These measures meet the terms of the Children's Internet Protection Act (CIPA) for protecting minors against access, through computers and other electronic resources, to visual illustrations that are obscene, pornographic, or are otherwise harmful to minors. However, it is impossible to fully control all information available to students. Because information on networks is transitory and diverse, Marian Central cannot completely predict or control what users may or may not locate. The school believes that the educational value of limited access to the information, interaction, and research capabilities that technology offers outweighs the possibility that users may obtain or encounter material that is not consistent with the educational goals of Marian Central.

Therefore, Marian Central adopts this Policy governing the use of electronic resources and the Internet in order to:

- Acknowledge the privilege granted to the student for using the school's computers and other electronic resources;
- Ensure responsible and ethical use of the school's network, Internet resources, and e-mail;
- Provide guidance for acceptable use by students obtaining access to electronic resources; and
- Preserve the security and integrity of the school network.

No technology is guaranteed to be error-free or totally dependable, nor is it safe when used irresponsibly. Among other matters, Marian Central is not liable or responsible for:

- Any information that may be lost, damaged, or unavailable due to technical, or other difficulties;
- The accuracy or suitability of any information that is retrieved through technology;
- Breaches of confidentiality;
- Defamatory material; or
- The consequences that may come from failure to follow MCCHS policy and procedures governing the use of technology.

#### **Responsibilities of the Student:**

All users of computers and other electronic resources shall be consistent with the Diocesan and School's goal of promoting educational excellence by improving resource sharing and communication. This Acceptable Use Policy does not attempt to state all required or restricted behaviors of users. By signing this Policy, the student acknowledges that he/she has read the terms and conditions, understands their significance, and agrees to abide by this Policy.

This Policy applies to all student-issued laptops, school-based computers, and other electronic resources: calculators, cell phones, digital cameras, and provides guidance for acceptable, responsible, and ethical use of these resources. The use of computers and other electronic resources is a privilege not a right, and any attempt to violate the provisions of this agreement could result in revocation of the student's privileges, regardless of the success or failure of the attempt.

## Student/Guardian Policy and Guidelines

In an effort to increase opportunities to use these 21st century skills, Marian Central Catholic High School is pleased to offer our students access to the school's computers, internet, network, and other technology through our 1:1 program ("Marian Student Device") for educational purposes. From this point forward, the phrase "Marian Student Device" includes the device provided to each student (in its entirety) and the charging cord. The Marian Student Device will be issued to each student for their own personal educational-related uses both at school and at home. Marian Student Devices issued through this 1:1 program are solely educational devices and are to be used in that capacity. Failure to comply with these guidelines may lead to suspension or termination of student use.

### **Ownership of Marian Student Devices:**

Marian Central Catholic High School maintains the legal title of all Marian Student Devices issued to students. Students are authorized to possess, and use is as long as they comply with the Acceptable Use Policy (AUP), but they hold no ownership rights to the Marian Student Devices. Marian Central Catholic High School shall not be held liable for any damage, loss, or claim of any kind resulting either directly or indirectly from student use or inability to use Marian Student Devices.

### **No Warranties:**

Marian Central makes no warranties regarding Marian Student Device. Marian Central shall not be liable for any damage, loss, or other claims of any and all kinds resulting directly or indirectly from use or inability to use our Technology.

### **Costs:**

Any manufacturer defects will be covered by the manufacturer's 3-year warranty. Marian Central holds insurance for all school technology issued to each student under this agreement at no cost to the student.

**Each student is required to pay a deductible or complete replacement cost for damage, theft, or loss.** The claim/deductible table is at the end of this document. In case of negligence or willful or wanton conduct in violation of any Marian Central policy or procedure governing the use of this device, damage will not be covered, and instead, Marian Central will assess the full replacement cost of the device to the student's family.

#### **If the Marian Student Device is Lost/Stolen:**

If the Marian Student Device is lost or stolen, the police must be notified within 24 hours of the discovery of the loss/theft. A police report must be filed by the student's parent/guardian. In addition to contacting the police, the student's parent/guardian shall notify Marian Administration that the computer is stolen or lost within 24 hours of the discovery of the loss or theft, providing school authorities with appropriate copy of police report. If the loss was claimed on the family's insurance, any reimbursement received should be provided back to Marian Central Catholic High School in compensation for the loss. **If the device is recovered but not in good condition, or not recovered at all and the loss was not covered by insurance, the family may be required to reimburse the school for the replacement cost of the lost/stolen device.**

#### **Return of Marian Student Device:**

All students must return the Marian Student Device at the end of each school year. Additionally, if a student withdraws from enrollment with Marian Central Catholic High School, or has his/her rights terminated, the student must return said Marian Student Device immediately. In no event shall the student retain the Marian Student Device for more than 2 days after the date of expiration, withdrawal, or termination. If a student fails to return the Marian Student Device in a timely fashion and/or the device is returned in poor condition, the student and his/her parent/guardians will be subject to paying replacement costs.

#### **MCCHS Technology Transport and Use:**

Once the Marian Student Device is issued to the student, the student and his or her parent or guardian are responsible for Marian Student Device at all times that it is signed out to the student. Students and their parents or guardians must take reasonable care to protect and properly use the Marian Student Device issued under the program at all times. Among other things, this means:

- Once assigned, the student is fully and solely responsible for said Marian Student Device including when they are left unsupervised in a classroom, hallway, locker or elsewhere on or off school property.
- The student is the only authorized user of his/her assigned device. Students may not share or trade their computers with other individuals, including other students, other than their parents, guardians, or school officials.
- Students must bring their devices fully charged and with the power cord to school daily. Repeated failure to bring the computer to class daily may result in discipline or other consequences under technology policies.
- Marian Student Device must be used on flat, stable surfaces only.
